What is MENGO Green Hunt?	MENGO is a network of twenty Environmental Civil Society groups working on environmental protection and sustainability development. We are organising a Green Hunt focusing on the 3R's and public transportation. This is a public event where teams will be flagged off to use the monorail just next to the Malaysia Association of the Blind building at Jalan Tun Sambanthan 4.
www.mengo.org	MENGO is a not for profit organization. The Hunt will be held on 27 June 2009 in conjunction with World Environment Day celebrations. This <u>hunt will have a low impact on the environment</u> and promotes a <i>low ecological footprint</i> . This hunt is focused mainly on sustainable transport with a zero waste production. All materials that will be used for the hunt will be on recycled materials, consumables with minimum packaging, reducing use of plastics in order to minimize waste

generation.

The hunt will consist of categories that utilize public transport by foot, bus and rail (LRT and Monorail). The participants to the Hunt will have a fulfilling experience which stimulates them to care for Mother Earth and the conservation of precious natural resources that are fast depleting.
